

19           A     I see him sit down in the driver's seat of the car  
20     and reach over with his right hand over the passenger back  
21     seat, get something off the floor of the car.

4           A     Yes, ma'am. We were closer than that. Because  
5     after he got the gun, he came outside the door. So actually  
6     we were closer, but we still had a little -- maybe 3, 4 feet  
7     in front of us.

8           Q     So when he got the gun and pointed it towards the  
9     ground, did he take a couple steps away from the car door?

10          A     Yes, ma'am. He cleared himself of the car door.

11          Q     So people could see that he had the gun, and he was  
12     pointing it at the ground?

13          A     Yes, ma'am.
