

1 I'm going to ask you to draw on it. Could you come down,
2 please. This is not drawn to scale. It is the best anybody
3 could do. If you could tell us somewhere about -- where was
4 the other car for the person --

5 A Like crooked down in this way.

6 MR. POITINGER: Sorry. I cannot hear him.

7 BY MS. GENTRY:

8 Q Okay. You have got to say it really loud.

9 A He was parked like he was going around the
10 McDonald's parking lot and stopped up by the drive-through.

11 Q Okay. When you say crooked is he then parked in
12 such a way that he is actually blocking that one lane of
13 traffic that has been going around?

14 A He was, like, he cut into it, like, he jump ahead
15 of somebody or something. He was at an angle.

16 Q All right. When he is at an angle is there any way
17 for you all as you are going around to get around him, say?

18 A No. There was cars over here too.

19 Q Cars being parked cars?

20 A Yeah.

21 Q And this is actually by the drive-through. Was
22 there any other way to get around or was it -- because of
23 his angle where he cut through that was what you could do --
24 you would just had to wait?

25 A Had to wait.
